

System Requirements

CloudBeds is a cloud-based hotel management system with Property Management, Reservation Management and Channel Management (Distribution) capabilities.

It runs online (over the Internet) the same way you would access your online email account. Nothing is installed on your computer or downloaded.

We have listed minimum system requirements and recommended system requirements below.

	Minimum Requirement	Suggested Requirement
Computer / CPU	PC or MAC with 64-bit processor 1 Gb RAM Ethernet 10/100 and / or WiFi a/b/g connection	PC or MAC with 64-bit processor 4 Gb RAM or more 100 / 1000 Ethernet and/or WiFi n connection
Operational System	Windows XP 64 / MAC OS 10.6	Windows 7 / MAC OS 10.9 or newer
